

ORDERED TO COMMIT SUICIDE OR LEAVE

Patrolman Tells Dying Man to Tie
Head in Sack and Jump
Into City Creek.

"If you don't get out of town by 2 o'clock this afternoon, tie your head in a sack with a heavy rock and jump into City creek."

This was the advice given this morning by Patrolman M. J. Lyon to Robert Higgs, a hop-head who is suffering from consumption and a loathsome disease and in bad physical condition.

Higgs was arrested a couple of days ago for vagrancy and yesterday afternoon was given a float, or until 2 o'clock, this afternoon, to leave the city. Patrolman Lyon found him on North Temple street this morning and placed him under arrest. The man was so unkempt and dirty it was difficult to tell what was his natural color.

When brought to the station it was learned that he had until 2 o'clock to leave town and it was then that Lyon gave him the advice to jump into the creek. The police are now speculating whether or not the unfortunate will leave Salt Lake or commit suicide.

TO ROUSE INTEREST IN ART.

J. B. Fairbanks Invited to Become
Member of American Federation.

J. B. Fairbanks has received an invitation to identify himself with the American Federation of Arts, whose headquarters are in Washington. This federation was organized at a convention of artists held in Washington last May, at which over eighty art societies were represented by delegates from 16 states. The objects of the federation are to unite in fellowship all institutions and individuals interested in art and its advancement, to give voice to concurrent sentiment of such in reference to matters pertaining to the fine arts; to induce better legislation and a more intelligent patronage of the fine arts by the federal government and to stimulate, by all practicable means, the development of taste. Mr. Fairbanks has sent his acceptance of the invitation to become a member and will exert every possible endeavor to stimulate the aims sought by the federation.

WOOL STORAGE WORKS WELL.

More Than Expected is Consigned to
Chicago Warehouse.

President J. E. Cosgriff of the National Wool Warehouse Storage company writes to Salt Lake correspondents from Chicago that more wool than was expected, is being received at the new Chicago warehouse, and that the market is firm, though quiet. The Boston commission men do not seem to have made much of a showing in opposing the Chicago storage plan, although they made a bitter fight, ably assisted by the Boston papers. Mr. Cosgriff says the success of the Chicago scheme is beyond all question. Nothing that Boston can do now will have any effect on it.

BATTERY PRACTISE MARCH.

Organization Votes to Put in Four
Days Extra Time.

The First battery voted last night to give four days' additional time to the annual encampment of the guard, and will take four days' practice march into the mountains east of the city, returning in time to participate in the camp and the G. A. R. parade. The members of this organization take particular pride in it, and special efforts are being made to recruit up to a numerical strength as possible before the appearance of the G. A. R. veterans. The command was recently provided with as fine a new equipment as any battery in the guard of the city. In fact as complete as may be found in the regular army, and the use of this outfit is something that any young man might learn with marked profit to himself. The battery is having three inspections annually of its equipment by regular army officers, in addition to the periodical inspection of its personnel, so that the organization is being forced up to a high standard of excellence.

Cocoa Fact

The cocoa tree is a very fastidious plant. It will grow only in deep alluvial soil. The land must be well watered, but also well drained. There must be plenty of shade and little wind—all in a thoroughly tropical climate.
